NEWSLETTER
5/12/2025

The festivities are in full throttle here in school and the Christmas excitement is building.
There will be no homework from next next to allow the children time to get some Vitamin D and help with the preparations at home. These are the moments that make Christmas such a special time.
For the last week of school the children can wear Christmas jumpers and santa hats.

Extension

Our architects have updated the draft program for our building works. They have informed me that they hope to go to planning in March 2026 and approval from the DES to go to tender this time next year.
